

Louise Olsson

Originally from Uddeholm, Sweden, Louise Olsson is currently a full-time professional golfer living in Riverview, Florida. Success in the game of golf came early to Louise when she won three tournaments on the Swedish Junior Tour before attending the College of Charleston. It was in college where Louise continued to develop her love for the game, as well as her success playing. In college, she achieved four Top-Ten finishes as an individual, as well as tied the school record for low round (67).

After graduating from college in 2016, Louise earned her first Epson Tour (previously Symetra Tour) status in 2017. Additionally, she finished Top-Five in the 2021 Women's Maryland State Open. Another one of her favorite golf accomplishments was representing the Swedish National Team at the Harder German National Masters where she placed 7th as an amateur.

Louise joined Backswing Golf Events with the hopes of continuing to pursue her dreams of playing on the LPGA. She loves that Backswing allows her to keep doing what she loves, while also meeting many new people, traveling to new places, and raising money for local charities and companies!
